

A3+ Photo Printer with 8-ink dye-based system for vivid and vibrant professional quality prints. Archival quality photos in black and white or colour.

For professional prints at home, the PRO-100s is feature-rich with wide media choice and connectivity that will deliver exhibition-quality prints for years to come. The 8-ink dye-based system delivers truly vibrant colour prints with unrivalled glossiness up to A3+ at unrivalled speeds. With three monochrome inks you can create beautiful, classic black and white photographs with smooth tonal gradations. Produce your output efficiently with accurate screen-to-print colour matching using the PRO-100s's advanced applications, workflow management and colour enhancement technologies. The PRO-100s has Ethernet and Wi-Fi connectivity enabling multiple users to print from anywhere in your network.

## Key Features

### Exceptional Quality Colour & Monochrome Prints

- FINE technology delivers professional quality prints with a high resolution of 4800 x 2400 dpi (maximum). Thanks to the FINE print head's 6,144 microscopic nozzles, ink droplets can be placed with a pitch of 1/4800 inch at minimum, resulting in precise, detailed, beautifully rendered prints.
- Supports 1200 pixel-per-inch (ppi) input resolution to reflect the increasing number of pixels available on professional cameras.
- The Optimum Image Generating System (OIG System) enhances colour reproduction, natural tonal gradations and uniform glossiness in each print mode and media type, to produce professional print quality

### 8-Colour Dye-based Ink System

- New 8-colour ink set consisting of 3 Monochrome inks to produce richer and more saturated colours, while delivering a wider colour reproduction range in dark colours for smooth gradation. The new Grey inks helps to reduce the appearance of grain and banding.
- ChromaLife100+ delivers beautiful, long-lasting photo prints.

### Productivity

- Enhance your productivity with exceptional prints speeds; printing an A3+ bordered colour print in 1 minute 30 seconds<sup>1</sup>.
- Wi-Fi and Ethernet enabling connectivity for multiple users, perfect for home, studio and educational environments.
- Apple Mobile device printing, with Apple AirPrint
- 2-way paper feeding as well as a DVD/CD disc tray to support a variety of media sizes and thicknesses.

### Simplified Workflow & Professional Colour Control

- New Print Studio Pro plug-in software, designed to Photographers requests, integrates seamlessly Adobe Photoshop® family, including Adobe Photoshop®, Elements® and Lightroom®.
- New PRO Mode analyses the colour gamut and adjusts the colours to deliver prints that directly match the image as seen on the screen, simplifying workflow.
- ICC Profiles provided for all Canon Papers as well as a large range of other medias from leading manufacturers such as Ilford, Hahnemuhle, Canson and Moab.
- Customise and save frequently used print settings offering the highest level of control through colour management and monochrome printing.
