BatteryGrips

Features

- ▶ Double the power – with 2 Li-ion Batteries (in batterygrip or in camera).
- ▶ Vertical Shutter Release & Command Dial – BatteryGrip Pro allows for vertical shutter release as well as aperture and shutter speed adjustments depending on model
- ▶ Infrared Remote Controls supplied with many models. Remote control transmitter provides autofocus before shutter release and continuous shutter release or bulb function for as long as the button remains pressed.
- ▶ Built-in Infrared Receiver & Remote Control included with most models
- ▶ Flexible power solution – choice of Li-ion or AA mignon batteries depending on model
- ▶ Built-in power management – regulates output to camera

Power Management

Built-in Power Management regulates the power output to the camera for maximum efficiency. 1 or 2 Li-ion Battery Packs, even at different charge levels, can be used. The Power Management detects use of Li-ion or AA batteries automatically.

Double Power

Use 1 or 2 Li-ion Batteries
(1 in batterygrip / 1 in camera)

AA Power

Use 6 AA Batteries (in batterygrip)
AA Adaptor tray included

HN-D600 Infrapro
For Nikon D600 DSLR

Batteries not included. It is recommended, when possible, to use Rechargeable Battery Pack as a preference to Alkaline Batteries. (DO NOT use AA Lithium Batteries). Always use 6 rechargeable AA as one set. The camera may not function with AA Batteries when used below 0°C. Correct at time of print. Specifications and details may be subject to change without notice.
