

16MP Live MOS sensor with no Low Pass Filter provides highly detailed images & better resolution.

New Dual I.S. 2 combines 5-axis Body IS with 2-axis Lens OIS for maximum stability when shooting photos and video, including 4K recording.

Incredible 4K video recording at 100Mbps 24p/25p/30p.

Capture 4K burst photos at 30fps. 4K Pre-burst captures 30 frames before and after pressing the shutter.

Choose & refine your focus point after you take the shot, and use Focus Stacking to get everything in focus.

New Electromagnetic shutter reduces noise & eliminates vibration

High Res. Live Viewfinder with 0.74x magnification and 3.0" Free-angle LCD touchscreen.

Weather-sealed design for shooting in tough conditions (combined with weather-sealed lenses).

Easy sharing and remote control via Wi-Fi and the Panasonic Image App
