Large 1/2.5-inch sensor records high quality Full HD video and offers great performance in low light conditions.

Leica F1.8-4.0 24x Optical Zoom lens (25-600mm equiv.) lets you record everything from wide group shots to close ups.

5 axis Hybrid O.I.S+ uses five-axis correction suppress blurring caused by camera movement.

New Ball O.I.S. and Adaptive O.I.S. greatly improves correction for small-amplitude hand-shake.

Automatically adjusts the contrast while recording in bright conditions to produce videos with smoother gradation.

Enjoy creative, cinema-like visual effects just like in the movies. Slow & Quick Video, Slow Motion, Slow Zoom and Dolly Zoom.

Capture multiple scenes simultaneously. Connect up to two devices and record an additional perspective.
